Lwando Sodinga

630 Killfish Ebony Park 1632
0655940699 | Sodingalwando98@gmail.com

Objective

Detail-oriented technologist with a National Diploma in Information Technology (Software Development) and hands-on experience spanning software testing, web development, and cloud infrastructure. Skilled in automated testing (Playwright, Java), cloud virtualization (VMware, CloudBolt), and backup/disaster recovery management (Veeam, Zerto). Backed by multiple international certifications under Microsoft, CompTIA, and Oracle, with communication and cross-functional collaboration skills.

Experience

- **FNB** 01-04-2026 - Present
  Technical Tester (Intern)
  ◦ Collaborated with cross-functional development teams to design and execute automated UI tests using Playwright and Java scripting, while leveraging Jenkins for continuous integration and automated test execution pipelines.
  ◦ Performed rigorous REST API and mobile testing to identify bugs early, ensuring high-quality releases for digital banking platforms.
  ◦ Documented software workflows, test strategies, and system requirements using Confluence, while tracking resolution lifecycles, bug reporting, and task management via Jira.

- **mLab** 01-06-2025 - 01-11-2025
  Web Developer (intern)
  ◦ Developed and deployed full-stack web applications, including a Library Management System and a Shopping Cart System.
  ◦ Built a Weather Web Application integrating external APIs to fetch and display real-time data dynamically.
  ◦ Collaborated in an agile team environment to write clean code, test features, and troubleshoot application bugs.
  Key Projects
  • Library Management System & Shopping Cart System: Developed full-stack web applications featuring database integration and user authentication.
  • Weather Web Application: Built a dynamic front-end application connecting to third-party REST APIs for real-time weather tracking.

- **IOCO** 01-09-2024 - 28-02-2025
  Cloud Computing and Security (Intern)
  ◦ Administered and maintained cloud environments and virtual infrastructure utilizing VMware (ESXi, vCenter) and CloudBolt for streamlined cloud management, resource provisioning, and automation.
  ◦ Executed comprehensive backup, recovery, and disaster recovery procedures using industry tools like Veeam, Zerto, and Redstor.
  ◦ Provided robust technical support, including adding users to Active Directory (AD), configuring VPN user groups, and utilizing Fortinet for adding and managing security policies.
  ◦ Handled IT service requests efficiently through internal ticketing systems, strictly adhering to response times to avoid breaches of Service Level Agreements (SLA).

- **UVU Africa (Capaciti)** 01-03-2024 - 30-08-2024
  Cloud Computing Intern
  ◦ Completed an intensive professional readiness program focused on business communication, technical presentations, and stakeholder engagement.
  ◦ Developed strong collaboration, project pitching, and interpersonal skills essential for cross-functional tech environments

Education

- **Faith Mangope Technology and Leadership Institute** 2025
  Software Development and Data Analysis

- **Tshwane University of Technology** 2025
  National Diploma in Information Technology (Software Development)

Skills

- Systems & Cloud: VMware ESXi, vCenter, CloudBolt, Active Directory, Fortinet, Zerto, Veeam, Redstor
- Software Development & QA: Java, C++, SQL, PL/SQL, PostgreSQL, Basic React + Node.js, Playwright, REST APIs, Mobile Testing
- Tools & Collaboration: Jira, Confluence, Jenkins, Remote Assistance, Ticketing Systems (SLA Management), Troubleshooting, Diagnostics

Certification:

- Power BI Data Analyst Associate (PL-300)
- Data Fundamentals (DP-900)
- Security, Compliance and Identity (SC-900)
- Java OCA Programmer I
- Fortinet Cybersecurity Associate
- Azure Fundamentals AZ-900
- Microsoft Fundamentals (MS-900)
